## SOUTHEAST

A GATHERING OF INNOVATIVE MINDS

APRIL 11-13, 2008

Interdenominational Theological Center

**WHAT IF....** we could nurture an emerging generation of thinkers who understand that It's All Connected, and that our best hope for healthy communities is to address our problems with a comprehensive systems approach?

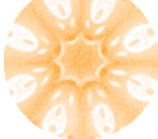

**WHAT IF....** there were an emerging class of leaders who get these connections, and are working to build coalitions across organizations and issues?

**WHAT IF....** we could bring together those visionary, integrative leaders and the communities they represent, and forge a new vision for humanity's future?

In Atlanta we are building a community of Innovative Minds committed to preserving and supporting the future of our lives in metro Atlanta and beyond. These leaders herald a new vision of our communities founded in natural principles of partnership, interdependence, cooperation, mutual success, and community.

The Bioneers Southeast Forum brings together the best minds and movements in metro Atlanta, in a local effort to forge our new vision for a better future for our community. And most of all positive solutions that transcend political, cultural and social boundaries.

JOIN INSPIRING FUTURES, THE INTERDENOMINATIONAL THEOLOGICAL CENTER (ITC), AND THE BIONEERS MOVEMENT AT THE 2008 BIONEERS SOUTHEAST FORUM.

THE BIONEERS SOUTHEAST FORUM BRINGS TOGETHER THE BEST RESOURCES FROM THREE INNOVATIVE AND VISIONARY ORGANIZATIONS.

INSPIRING FUTURES (IF) brings together human passion and innovation to nourish Atlantans' emerging vision of a different, better, thriving community. IF believes that:

- Meaningful change happens most readily through personal and local relationships.
- Our Communities can achieve positive change by focusing on solutions and insuring access to opportunities.
- Everything in our world is connected, and focusing on our issues as an interwoven system will always yield the best solutions.

THE INTERDENOMINATIONAL THEOLOGICAL CENTER (ITC) is a consortium of denominational seminaries whose mission is to educate Christian leaders for ministry and service in the Church and the global community. The ITC educates those who commit to and practice a liberating and transforming spirituality, academic discipline, religious, gender, and cultural diversity; and justice and peace.

THE BIONEERS NATIONAL CONFERENCE (held in California every October) is a gathering of scientific and social innovators who have demonstrated visionary and practical models for restoring the Earth and its communities. The Collective Heritage Institute, which organizes Bioneers National, is an environmental and social justice organization.
